

Employee Assistance Program (EAP)

What is EAP?

EAP is a confidential service available at no cost to Programmed/PERSOLKELLY employees and their immediate family members.

Through EAP, employees can access a range of support and counselling services conducted by qualified and experienced professionals by phone or at a wide range of locations for any issue, personal or work related.

With everything going on around us, it can be beneficial to talk to a friendly professional from time to time. Your EAP is a confidential, short-term counselling service designed to help support you with a range of concerns.
